FOC/DAC Orientation

FOC/DAC Orientation

Purpose

- Communicate the basics for getting started in the FOC/DAC program

Agenda

- Program Perspective - Overview Digital Wallet, Blockchain
- Program Perspective
 - Acronyms
 - Mnemonics (MNEs) - Technology Applications
- Agile Product Development
 - Agile Methodology
 - POD Based Delivery Model
 - Team Role Definitions
 - Team Structure
 - Teams in Action
 - FOC > JIRADC Workflow
- Product Requirements
 - Strategic View
 - Refined through JIRA Hierarchy
- Confluence Quick Start
- Jira Quick Start
- Overview Fireblocks
- Reporting Time

Dec 2021

Demystifying the Digital Wallet

Part 1 – Overview

Demystifying the Digital Wallet

Contents

- Digital Assets
- Digital Currency
- Digital Wallet
- Digital Signature
- Private Key
- Token
- Address
- Blockchain
- Conclusions - Key Takeaways

Dec 2021

Demystifying the Digital Wallet

Part 2 – How Digital Currency Works

Demystifying the Digital Wallet

Contents

- Digital Assets
- Digital Wallet Functionality
- Digital Currency
- Digital Currency Categories
- Types of Cryptocurrency – Bitcoin, Ether
- Tokenization
- Blockchain – Digital Ledger
- Conclusions - Key Takeaways
